

# WL-GI-700-11NX

802.11n 300Mbps Wireless USB Adapter

## Extend your Wireless reach.

Need to increase your Wireless range and speed? Looking to add faster performance for your Multimedia or Digital Lifestyle devices?

The new Dynamode **WL-GI-700-11NX** is a stylish USB2.0 adapter which brings the latest 802.11n (300Mbps) Wireless Speeds and increased range of lesser 802.11n and legacy 802.11g devices found on current Notebooks and Desktop systems, which often have compromised range and performance.

Ideal for getting the very best out of your existing 802.11n Broadband connection and is an ideal platform for feature-rich movie, sound and Gaming adaptation with improved network frame-rates and of course a faster online experience.

Business users will also appreciate the **WL-GI-700-11NX** since it offers the latest in enterprise level Wireless Encryption with legacy Encryption connection facilities, 'soft' AP and multi-roaming capabilities in a compact design for Windows®, MAC OS X™ and Linux™ Operating Systems.

Further product details available from [www.dynamode.com](http://www.dynamode.com)
