WS5600D

Massive Storage Capacity and Windows Operating System for Small and Medium Businesses

Buffalo Technology's new TeraStation™ WS5600D with Windows Storage Server 2012 combines six hard drive, high-performance network attached storage with the power and convenience of Windows operating system.

The WS5600D seamlessly melds with networks' existing Windows computers and server enabling quick straightforward deployment and massive storage capacity available in an instant.

The Buffalo quality you know and trust, plus the power of Windows, gives WS5600D users flexible and fully customisable business-critical support.

Once deployed, users will find WS5600D enables full Active Directory integration facilitating comprehensive access management, policies, and security. This allows networks to automate access and manage storage in the same way as they do their Windows Server. PowerShell and Microsoft Systems Center are ready-to-use, as well as a flexible choice of storage protocols (iSCSI, CIFS/SMB, NFS). Your most demanding applications and processes, such as replication, Hyper-V, SQL, a fast-indexing search during an anti-virus scan, and more, are no problem for the WS5600D.

The WS5600D comes equipped with the powerful Intel® Atom™ Dual-Core D2700 family Processor and 4GB of fast DDR3 memory installed. Buffalo Technology's TeraStation™ WS5600D is designed to guard against failures and prevent downtime with six hot-swappable drives.

Available fully populated with 12 or 24TB capacity.
